Employee Performance Evaluation Framework

Document ID: HR-004

Version: 1.0

Department: Human Resources

Team: Employee Relations

Effective Date: April 1, 2026

Last Updated: October 20, 2026

1. Purpose

This framework defines how employee performance is evaluated at Meridian Technologies.

The Employee Relations team coordinates performance reviews, maintains evaluation records and ensures that managers follow consistent assessment procedures.

2. Evaluation Schedule

Meridian follows quarterly performance reviews and an annual consolidated assessment.

Activity	Frequency
Goal setting	Annually
Progress monitoring	Monthly
Formal performance review	Quarterly
Development discussion	Quarterly
Consolidated	Annually

assessment	

Managers must submit quarterly assessments within five working days after the end of each quarter.

3. Performance Criteria

Employee performance is measured using five criteria.

Criterion	Weight
Quality of Work	30%
Goal Achievement	25%
Technical or Functional Competency	20%
Collaboration and Communication	15%
Reliability and Accountability	10%

The weighted score is calculated using:

Weighted Score = Sum of (Criterion Score × Criterion Weight)

Each criterion is evaluated on a scale of 1 to 5.

4. Rating Categories

Score	Rating
5	Exceptional
4	Exceeds Expectations
3	Meets Expectations
2	Needs Improvement
1	Unsatisfactory

Managers must provide supporting evidence for exceptionally high or low ratings.

5. Review Responsibilities

Employees submit self-assessments describing their accomplishments, challenges and development requirements.

Reporting managers evaluate performance against previously agreed objectives.

Department heads review department-level evaluation consistency.

Employee Relations maintains official evaluation records and coordinates disputes.

6. Performance Improvement Plan

Employees receiving a rating of 2 or below may be placed under a Performance Improvement Plan (PIP).

The standard PIP duration is 45 calendar days.

A PIP must identify:

- Specific performance deficiencies.
- Expected improvement outcomes.
- Measurable success criteria.
- Required training or support.
- Assigned manager.
- Review dates.

At least two documented progress discussions must take place during the PIP period.

The final outcome may be successful improvement, partial improvement requiring extension, or insufficient improvement.

7. Promotion and Compensation

Performance results may support promotion and compensation recommendations.

However, a high performance score does not guarantee promotion or a salary increase.

Recommendations must consider organizational requirements, available positions, employee responsibilities and approved departmental budgets.

Finance approval is required for compensation changes affecting approved budgets.

8. Review Disputes

Employees may request a review within seven working days after receiving their final assessment.

The request must identify disputed criteria and provide supporting evidence.

Employee Relations coordinates the review with the reporting manager and department head.

9. Confidentiality

Individual performance ratings, salary recommendations and PIP records are confidential.

Access is limited to explicitly authorized Employee Relations personnel and relevant reviewers.

Department membership alone does not grant access to individual performance records.
